

Certified Alarm Technician Training Programs

The National Training School (NTS) is the definitive training source for security professionals, providing the knowledge necessary to complete installations accurately and efficiently and prepare technicians for licensing. NTS is sponsored by the Electronic Security Association (ESA), and represented in New York by the New York Burglar & Fire Alarm Association.

Benefits of Attending

- NTS graduates are more confident in their abilities. They perform better installations, and are more professional in dealing with customers.
- Companies with NTS certified employees gain a distinct marketing edge over competitors. They tell prospects, "Our installers are experts. They are certified by the National Training School." Certificates and patches give consumers confidence.
- NTS helps security professionals stay up-to-date on the latest trends and issues in the security business. Customers note your expertise as your installations improve.
- NTS helps to raise the image and professionalism of the entire industry.
- Companies that send employees to NTS attract the best workers – those interested in being top-notch security professionals!
- Security professionals who attend NTS classes receive course material as a reference to use during and after the course.

Having trained over 45,000 individuals since it's founding in 1985, clearly shows why ESA NTS is referred to as the "Definitive Training Source in the Electronic Life Safety and Security Industry"...

International Building Code Course

In 7 hours of classroom instruction, students learn the practical application of the International Building Code.

Many cities, counties and states have adopted the International Building Codes for use in their jurisdictions. This course will use the 2009 edition as the basis of instruction and will concentrate on the provisions directed toward building fire safety.

The course will provide a good foundation for those using the International Building Code as the basis for building design with respect to the fire protection requirements as well as for those with plan review and code enforcement responsibilities.

Topics covered will include Use Group classifications, means of egress requirements, and requirements for fire alarm and detection systems.

The course is particularly suitable for providing continuing education credit for those maintaining NICET certification

The course concludes with a one-hour examination.

The course of study includes:

- Fire Alarm Systems
- Egress Control
- Assembly Occupancies
- Education Occupancies
- Day Care Occupancies
- Residential Occupancies
- Institutional Occupancies
- Other Occupancies
- Comparison of LSC to IBC
- Reference Manual and Examination

Tax Deductible:

The IRS permits income tax credits for expenses – such as registration fees, cost of travel, meals and lodging – incurred to maintain or improve required job skills.
